This 1973 Directory contains the names and addresses of three different categories of lenders licensed by this agency.

In addition to the names and addresses, the directory shows the type license(s) held, the license number, the principal type of loans made under the authority of the license(s) held and a code indicating whether the licensee is affiliated with others or is an independent operator.

The type license(s) held is designated immediately following the name by one or more letters or the absence of letters.

- (1) If there is no letter, only a regulated loan license is held.
- (2) The presence of a letter "P" indicates a pawn license is held, an "I" designates an insurance premium finance license and an "R" in conjunction with "I" and/or "P" indicates a regulated loan license is also held.

The basic license number appears to the extreme right of the name.

The principal type business continues to be shown on the second line of each entry. The business type codes are:

- A - Art. 3.15 - Installment loans to \$2500
- B - Art. 3.16 - " " to \$100
- D - Art. 4.01 - " " , unlimited amount
- M - Art. 5.01 - " " , secondary mortgage
- I - Art. 12.01 - " " , insurance premium financing
- P - Pawn Loans
- \* - Inactive License

The three digit number to the extreme right of the address identifies independents by "100" or if an affiliation exists between two or more offices, each affiliated group is assigned a specific identifying number which is shown.
