In Robertson County all probate records are in the custody of the county clerk. Case papers are kept in 90 file drawers, labeled 1-90, in the clerk's vault. The papers of each case are contained in an individual file jacket. Cases filed 1838-97 are arranged alphabetically by the first letter of the surname of the principal party; cases filed thereafter are arranged numerically by the case number.

Since the transfer of territory from one county to another has affected probate jurisdiction and has determined the county in which the probate case should have been filed, a map and table of territorial changes are included herein. Notations concerning present location and availability of records pertinent to Robertson County follow:

Milam County, Cameron, records destroyed by fire in 1874.

The two areas contained within the short dotted lines were created as counties but were apparently never organized. The first, called Waco County, was created as a judicial county in January 1842 (28) and was declared unconstitutional (29). The second, called Richland, was created in August 1868 (30). It was apparently an effort to iron out a maze of boundary differences in the area.
