PREFACE

The information presented in this report is a tabulation of the data provided by transit systems throughout the State of Texas. Information on public transportation grants was provided by the Federal Transit Administration, U.S. Department of Transportation (DOT), and the Texas Department of Transportation (TxDOT). This information has not been audited by the Texas Department of Transportation, Public Transportation Division (TxDOT-PTN).

This 2008 report provides detailed comparisons of annualized 2007 and 2008 data along with the monthly 2008 transit statistics.

TxDOT-PTN is engaged in an on-going process of improving the accuracy and consistency of the data reported, by employing tools and conducting training to improve the collection, reporting and analyzing of the data. PTN continues to employ the service of Texas Transportation Institute (TTI) to provide technical assistance and training on performance reporting, along with an annual transit report on the data submittals and performance results for the nonurbanized and urbanized transit agencies.

Fiscal year 2008 is the second fiscal year in which the transit agencies used the PTN-128 web system to report data to TxDOT PTN; having these two years of web-based data has enabled transit agencies, PTN, and TTI to compare annual differences by data category and analyze annual variances.

TxDOT has chosen to retain Federal Transit Administration program numbers and terminology in use with the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETE A-LU).

INTRODUCTION

The Texas Department of Transportation's (TxDOT) mission is to work cooperatively to provide safe, effective, and efficient movement of people and goods. To support this mission, the Public Transportation Division (PTN) of TxDOT provides financial and technical assistance to public transportation agencies throughout the state.

The *Texas Transit Statistics Report* is published annually by PTN. Its primary purpose is to provide information to public officials, transit agencies and other interested persons. This 2008 report summarizes the key operating and financial characteristics of Texas' publicly assisted transit agencies.

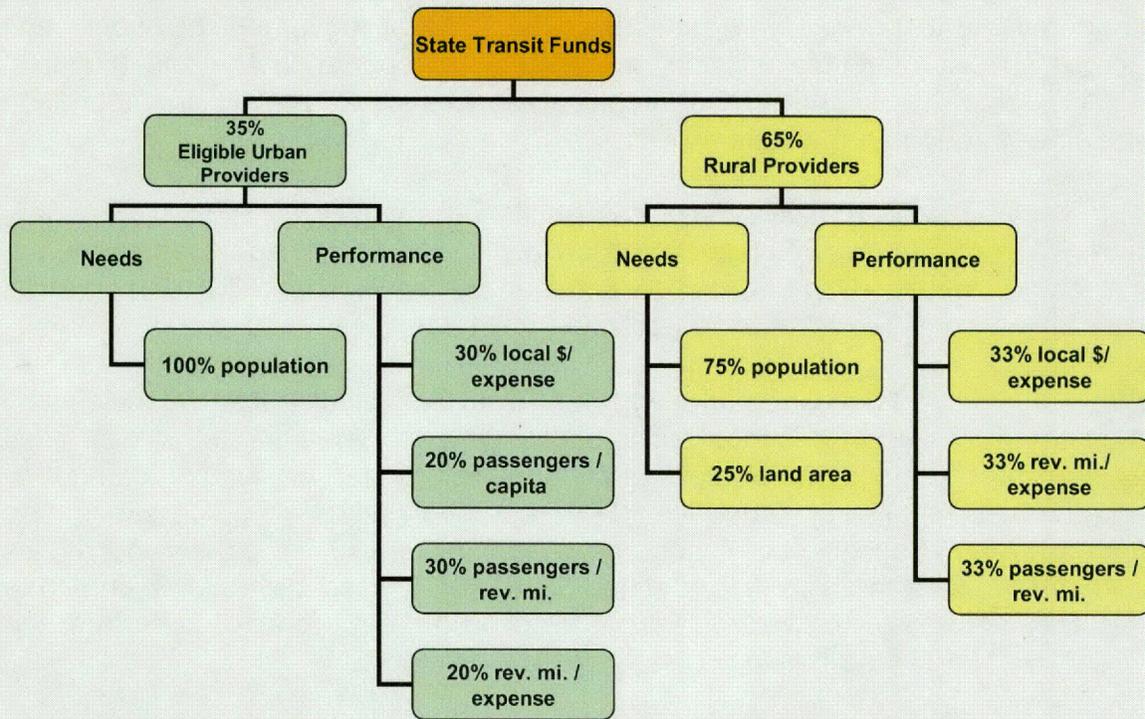

Every quarter, PTN collects monthly data from individual transit agencies and then compiles it into the annual totals published here. The information contained in this report is based on Federal Transit Administration (FTA) funding categories and the National Transit Database (NTD) reporting system. The operations data for urbanized (Section 5307), nonurbanized (Section 5311), elderly individuals and individuals with disabilities (Section 5310), job access and reverse commute (Section 5316), and the New Freedom (Section 5317) programs come from the TxDOT PTN-128 web-based quarterly operations reports.

This report shows performance-based measures of efficiency, effectiveness and safety from transit agencies that receive financial assistance from TxDOT and/or the FTA per the reporting requirements of Texas Transportation Code §456.008 and the Texas Administrative Code (TAC).

As the *2007 Texas Transit Statistics Report* indicates, in 2004 the Legislature directed the Texas Transportation Commission (TTC), known as the Commission, to include performance as an element of the funding formula. The Commission adopted a formula based on input from the Public Transportation Advisory Committee (PTAC) and PTN. The nonurbanized and urbanized transit agencies have performance-based elements in their respective funding formulas that rely on the measures of “needs” and “performance”. These measures were implemented in fiscal year 2007 (September 2006 – August 2007).

TxDOT-PTN uses these funding formulas to distribute the federal and state funds to the 39 Section 5311 nonurbanized (rural) transit agencies in Texas and allocate state funds to the 30 eligible urban transit agencies. The formula proportion in FY 2007 and FY 2008 for nonurbanized transit agencies was based on 80% “needs” and 20% “performance.” For urbanized transit agencies, the proportion for FY 2007 was based on 80% “needs” and 20% “performance,” and changed with the FY 2008 funding to the proportion of 65% “needs” and 35% “performance.” For a more-detailed breakdown of the funding allocation see the urbanized (Section 5307) and nonurbanized (Section 5311) summaries. **Chart 1 illustrates the funding formula.**

Chart 1. Texas Public Transportation Funding Formula

As mentioned in the preface, developing tools, training for data collection, and reporting the data accurately are priorities for PTN. PTN-128 data submittals are closely tied to a transit agency's ability to check reasonableness, provide explanation, and identify/correct issues. Because each agency collects data from a variety of sources (hours, miles, and unlinked passengers trips come from the operations area whereas revenue and expenses come from the finance/accounting area), it is critical that the person designated to oversee an agency's PTN-128 data submittals have the appropriate skill level and training on the PTN-128 form. In order to ensure the transit agencies meet these requirements, PTN provides thru the Texas Transit Institute (TTI) a one-day PTN-128 training class for transit district staff and Public Transportation Coordinators (PTCs) to ensure data is collected and reported accurately.

As a reporting tool, the web-based PTN-128 report allows for easy updates of the data, ensures corrections and revisions are captured at all three levels (transit provider, PTC and PTN), provides the ability to look at month-to-month trends, and provides access to each transit agency's data to help in problem solving or verification of data accuracy. This process has shown a significant benefit by decreasing the end-of-year reconciliation time in closing out the FY08 urban and rural transit data (the overall turnaround time decreased by 83 percent). This emphasis seems to be working effectively based on feedback on this reporting process from the PTCs, and the transit agencies have been extremely supportive.

Data in this report continue to be portrayed by the following types of transit agencies, based on size or the type of FTA funding received.

- Metropolitan Transportation Authorities (MTAs) provide public transportation in Texas' seven largest urbanized areas. All MTAs serve urbanized areas with a population greater than 200,000. They are organized under specific state laws and granted authority to levy a dedicated sales tax. MTAs are located in Austin, Corpus Christi, Dallas, El Paso, Fort Worth, Houston, and San Antonio. None are eligible to receive state funding through TxDOT. All receive federal funds directly from FTA's Section 5307 formula program.
- Denton County Transportation Authority (DCTA) is listed with the MTAs in this report, due to its similarities to the MTAs; however, it is a Coordinated County Transportation Authority in a urbanized area serving the "collar" counties adjacent to counties with populations of 1,000,000 or more, which includes Denton County. DCTA was successful in obtaining a sales and usage tax in 2004 for the cities of Denton, Highland Village and Lewisville.
- The term "Urbanized" as used in this report refers to transit agencies serving a single political subdivision within an urbanized area that do not meet the state definition of an MTA. All the transit agencies in this group receive state funds through TxDOT and federal Section 5307 funds that come directly from FTA. With the exception of Laredo, none of the agencies are supported by a dedicated sales tax.
- Nonurbanized or rural agencies (Section 5311) serve areas which are outside defined urbanized areas. Most serve multiple counties. Section 5311 agencies receive state and federal funds through TxDOT.
- Elderly Individuals and Individuals with Disabilities (Section 5310) Program recipients operate throughout the state in both urbanized and nonurbanized areas. Private nonprofit organizations or associations, public bodies that coordinate services for the elderly and/or persons with disabilities, or any public body that certifies that nonprofit organizations in the area are not readily available to carry out the services are eligible to receive grants. Only federal funds are given to recipients of these grants.
- The Job Access and Reverse Commute (JARC) (Section 5316) Program provides federal funding for the provision of transportation services designed to increase access to jobs and employment-related activities. Only federal funds are given to recipients of these grants, although state funds awarded through the urbanized or rural programs can be used for match.

- The New Freedom (NF) (Section 5317) Program provides federal funding for the provision of transportation services designed to increase services to individuals with disabilities. Only federal funds are given to recipients of these grants, although state funds awarded through the urbanized or rural programs can be used for match.

The introduction to each program section contains a short narrative of significant changes in the program along with detailed statistics. To meet the legislative requirement to provide an annual report showing monthly activities associated with the Section 5307, Section 5311, and Section 5310 programs, reports listing monthly activities for selected statistics are provided at the end of affected sections of this document.

In this report, the JARC (Section 5316) data elements have been incorporated into the applicable MTA, Section 5307, Section 5311 and Section 5310 program data. Tables that are effected show denotations next to each transit agency's name, indicating their data also include JARC data. Tables 33 and 34 provide the JARC operational and financial data of each affected transit agency for informational purposes only. Due to the inclusion of JARC data into other programs, monthly statistics have not been captured and are not shown at this time.

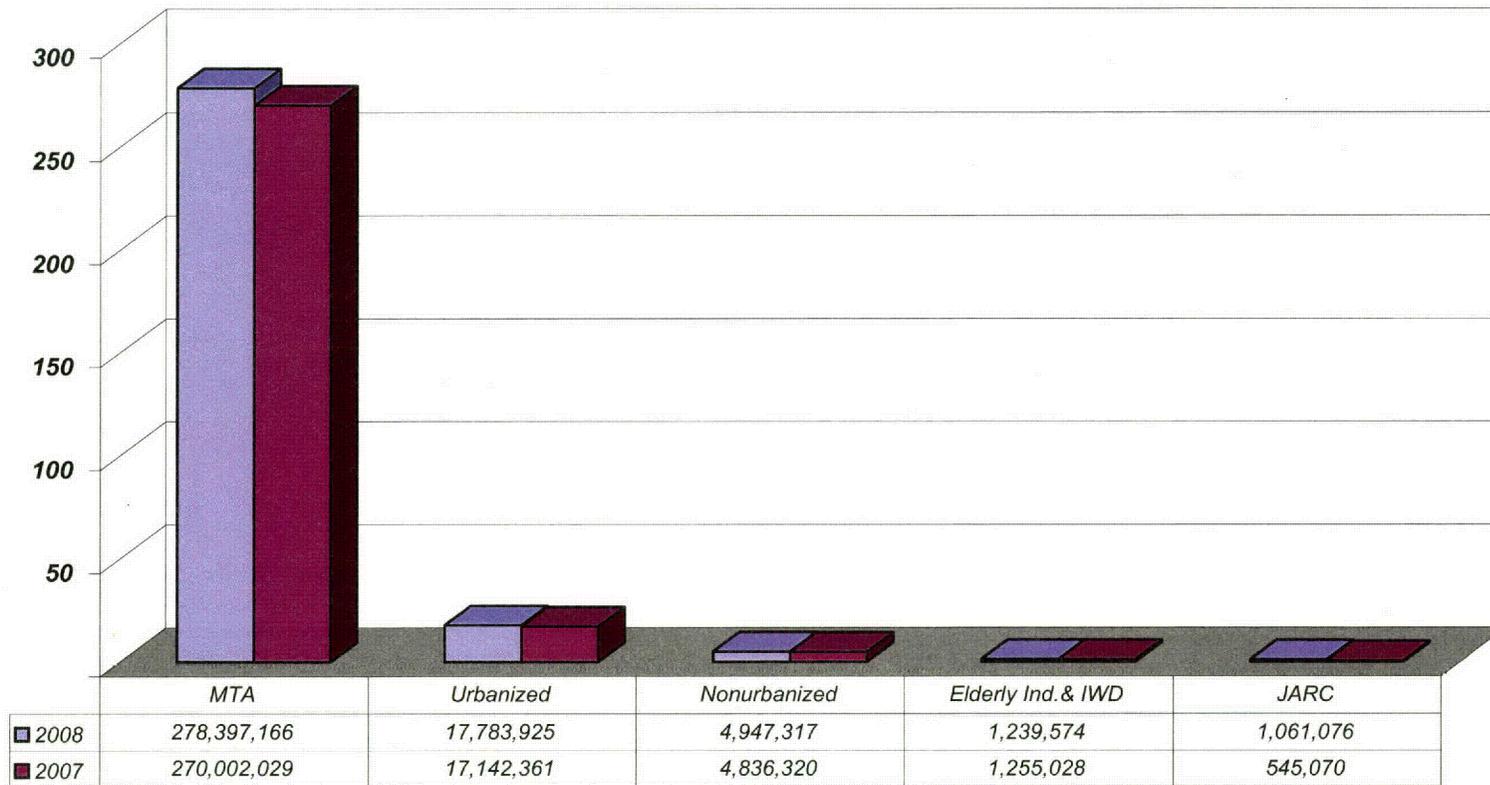

Similarly, the New Freedom (Section 5317) data for fiscal years 2007 and 2008 are incorporated into five transit agencies: one Section 5307 agency the (City of Brownsville); one Section 5311 agency the (Capital Area Rural Transportation System (CARTS)), two Section 5310 transit agencies (Faith In Action Caregivers (Austin)) and LULAC, Project Amistad (El Paso), and one independent transit agency (Panhandle Independent Living Center).

Figures 3, 4, 7, and 10 for the MTA, Section 5307, Section 5311, and Section 5310 transit agencies show the unlinked passenger trips per vehicle revenue mile for fiscal years 1999 through 2008. These figures continue to portray a slight decline in the overall ridership during this time period; however, the reader should be aware that this historical trend began showing signs of reversal in 2007. Due to the current state of the economy, the demand for mass transportation is projected to show a steady increase in ridership trends.

Note: Figure 1: Geographic Coverage of Public Transportation, page 5; and Figure 8: Nonurbanized Area Program, page 49, now includes Jeff Davis County which joined West Texas Opportunities, Inc. in FY 2008.

SUMMARY

MTA and URBANIZED AREA TRANSIT PROGRAMS (Section 5307)

The Section 5307 Grant Program (49 USC, Section 5307) provides capital and operating grants for public transportation projects in urbanized areas. The department continues to report data for metropolitan transit authorities (MTAs) and the urbanized transit agencies separately. The difference in the scale of operations between the two groups is such that it is inappropriate to consider them as a single, combined reporting group. As noted in the introduction of this report, TxDOT-PTN does not provide state funding to the transit authorities; however, the Texas Transportation Commission has requested reports on all transit activities, and this is done in voluntary cooperation with the MTAs. To obtain more extensive information regarding MTA services, their websites are included with contact information at the end of this report.

This report lists the Denton County Coordinated County Transportation Authority along with the seven MTAs due to its similarity in size and taxing abilities. In 2008, the combined ridership statistics for the MTAs and the CTA is 278 million riders, which is a significant increase of three percent above the 2007 ridership total of 270 million passenger trips. The ridership trends continue at an annualized rate of one percent for 1999-2008. When comparing the 2007 to 2008 statistics for miles traveled, the vehicle revenue miles increased five percent for the seven MTAs and one CTA. The overall vehicle revenue miles traveled over a ten-year period showed a two percent increase which might imply that more passengers are traveling farther distances.

Figure 3, below, displays the MTAs' trends over the past ten years. The newly-established CTA data is introduced in 2006. The annualized rate for 1999-2008 shows a slight decline of 0.86 percent in the number of unlinked passenger trips per vehicle revenue mile.

As mentioned in the introduction of this report, the funding formula is used to allocate state funds only to the 30 eligible urbanized transit agencies. The funding formula allocates 35 percent of the available state funds to urban agencies each fiscal year in the biennium. The percentage split in state funds is partially based on proportional population in the state and also recognizes that federal funds for urban transit are greater per capita than federal funds for rural transit. The funding formula allocates funds in two categories, based on “needs” and “performance.” “Needs” on the urban side is based entirely on population according to the most recent federal decennial census. For fiscal year 2008 the allocation split was 65 percent for “needs” and 35 percent for “performance”.

The state allocates money out of the total legislatively-appropriated funding for urbanized transit agencies to four providers (Arlington, NETS, Grand Prairie, and Mesquite). These four providers serve only elderly individuals and individuals with disabilities. Population, needs, and performance statistics are compared only among these four agencies when allocating funds in this category.

The state funding formula distributes urban performance funds based on a weighted average of four indicators. The funds are then allocated based on the relative performance of the urban service providers. These four performance-based indicators are:

- Local investment per operational expense
- Unlinked passenger trips per vehicle revenue mile
- Vehicle revenue mile per operational expense
- Unlinked passenger trip per capita (Urban only)

The indicators listed above are consistent with the performance measurement goals of the Public Transportation Advisory Committee (PTAC). “Local investment per operational expense” encourages cooperation and coordination. “Unlinked passenger trips per vehicle revenue mile” is a measure of service effectiveness, measuring how many people use the service for each unit of service provided. “Vehicle revenue mile per operational expense” reflects the efficiency of the operation. These three indicators address the goal of fiscal responsibility as well. The “unlinked passenger trips per capita” indicator acknowledges the requirement for funding assistance in cities where transit demand is generated by more than residential population, such as border, tourist and university cities.

Local investments may fluctuate from year to year and agency to agency as a result of large capital expenditures, change in city/county funding, and receipt of grants or contracts (i.e. medical transportation, Job Access Reverse Commute, Section 5310, and New Freedom programs). The “unlinked passenger trips per capita” indicator is based on the 2000 census population which does not change from year to year; therefore, only a change in passengers impacts this indicator.

Besides the performance-based funding elements noted above, the urbanized transit agencies are also responsible for reporting four additional performance-based indicators that measure cost efficiency, service effectiveness, cost effectiveness and safety per the Texas Transportation Code §456.008 and §31.48 of the Texas Administrative Code (TAC). The indicators listed below are required of recipients that receive financial assistance from TxDOT and/or FTA:

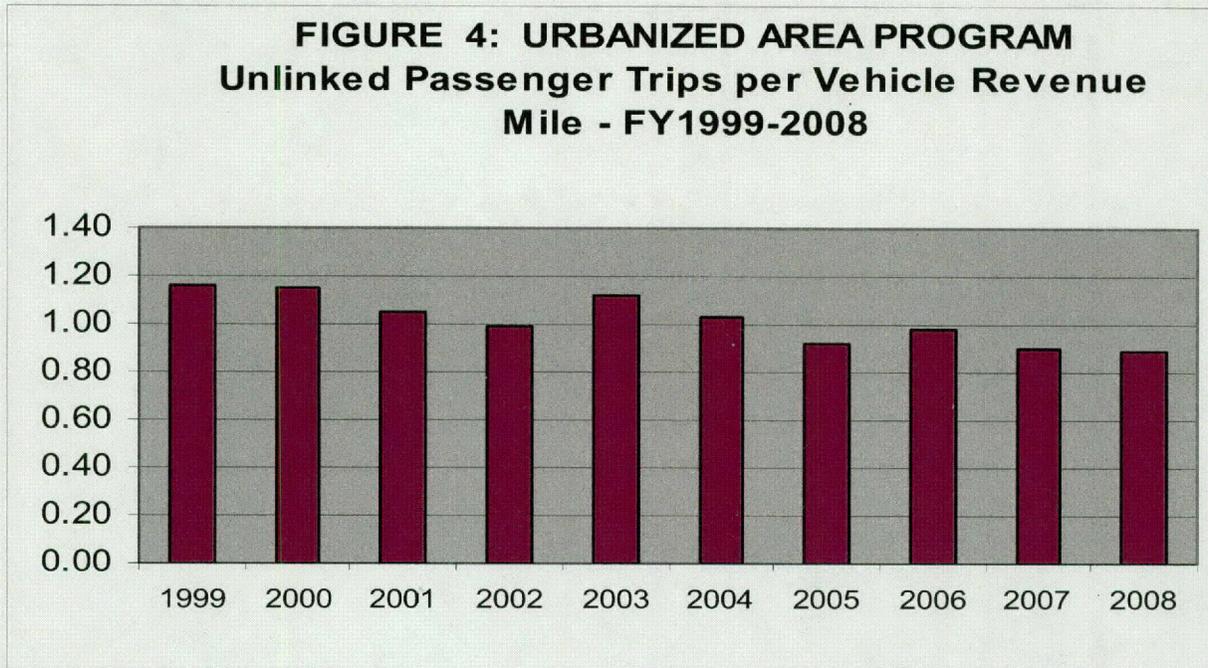

- (i) **Service efficiency**--Operating expense per vehicle revenue hour and operating expense per vehicle revenue mile.
- (ii) **Cost effectiveness**--Operating expense per unlinked passenger trip.
- (iii) **Service effectiveness**--Unlinked passenger trips per vehicle revenue mile and unlinked passenger trips per vehicle revenue hour.
- (iv) **Safety**--Total incidents per 100,000 miles of service and average number of miles between revenue vehicle mechanical system failures that prevent the vehicle from completing a scheduled revenue trip.

In comparing 1999 through 2008 statistics, the number of unlinked passenger trips increased steadily at an annualized rate of 1.53 percent. The "vehicle revenue miles" statistics show an annualized rate of five percent which is a one percent decline from the annualized rate of six percent miles traveled for 1998 to 2007. The "operating expense per vehicle revenue hours" indicator portrays a five percent annualized growth over the ten year time period and the "operating expense per vehicle revenue miles" statistics indicated a four percent growth rate.

The 2007 to 2008 ridership and mileage statistics showed significant increases of four percent and five percent respectively. The increased passengers and longer miles traveled in 2008 can be attributed to gas prices.

The improvements in the reported data for 2008 can be attributed to the efforts of PTN and TTI in developing tools and training that will ensure accuracy in collecting, reporting and analyzing the data. As stated in the introduction of this report, this is the second year the web-based PTN-128 reporting system has been used, allowing all involved parties to review and resolve any variances in the data by data category. This on-line reporting process also allows real-time "reasonableness" and "data quality" checks that may be performed anytime throughout the year.

Figure 4: depicts the annualized rate of unlinked passenger trips per vehicle revenue mile for 1999-2008, showing a slight decrease of two percent over the ten year period.

The monthly statistics are located at the end of this section. Note: "Local and Total Revenue" is also identified as "Local and Total Investments." The monthly statistics for "Total Revenue" and "Annual Total Revenue" differ slightly from one another in this report. This noted variance in these two statistics is due to the fact that the monthly statistics include federal, state, and local funding in the "Total Revenue," whereas the "Annual Total Revenue" statistics include only the local funding. Table 13 gives a brief description of the types of local contribution included in "Annual Total Revenue." This difference is also attributed to one of the funding elements for the performance-based funding measure documented earlier in this section. The monthly "Total Revenue" statistics show all the revenue received during the 2008 time period.

NOTES

- (1)* Derived revenue from advertising on vehicles/and or property. Also includes **passenger fares**, non-transportation revenue such as donation, parking fees from park & ride lots, investment earnings, etc. Prior reports sales tax inadvertently included in Total Revenue; however data has been corrected with this report.
- (2) Source used for sales tax revenue data is the Texas Comptroller of Public Accounts. Sales tax revenue is not included in total revenue.

#- Includes JARC data. See Table 31a for Breakout.

*Coordinated County Transportation Authority

**Laredo is the only urbanized area that collects transit sales tax.

SUMMARY

NONURBANIZED AREA PROGRAM

(Section 5311)

The Section 5311 Grant Program (49 USC, Section 5311) provides capital, planning, operating, and administrative grants for public transportation projects in nonurbanized areas. The nonurbanized transit agencies have mandates to report performance as described in the Texas Transportation Code, §456.008 and the Texas Administrative Code (TAC), §31.36.

The funding formula allocates funds based on “**needs**” and “**performance.**” Each agency’s “needs” index is comprised of 75 percent population and 25 percent land area. Including land area in the needs calculation recognizes the increased cost of providing transit service to geographically large areas. For fiscal year 2008 the allocation split was 65 percent for “needs” and 35 percent for “performance.”

The funding formula distributes performance funding based on an average of three indicators:

- Local investment per operational expense
- Unlinked passenger trips per vehicle revenue mile
- Vehicle revenue mile per operational expense

The funding formula represents an attempt to provide an equitable level of funding to a group of agencies that delivers a diverse range of transit services. Where one rural provider may have lower effectiveness (unlinked passenger trips per vehicle revenue mile) due to providing longer trips over a larger service area, larger service areas are benefited on the “needs” side thru the inclusion of land area as 25 percent of the “needs” factor. All providers can benefit by controlling costs, which will positively impact the efficiency indicator (revenue vehicle miles per operating expense) and could positively impact the “local investment per operating expense” indicator.

Like the urbanized transit agencies, the nonurbanized transit agencies are required to report the following indicators:

- (i) **Service efficiency**--Operating expense per vehicle mile.
- (ii) **Cost effectiveness**--Operating expense per unlinked passenger trip.

(iii) **Service effectiveness**--Unlinked passenger trips per capita and unlinked passenger trips per vehicle mile.

(iv) **Safety**--Total incidents per 100,000 miles of service and average number of miles between revenue vehicle mechanical system failures that prevent the vehicle from completing a scheduled revenue trip.

In addition to the performance-based reporting, the nonurbanized transit agencies are obligated to report annually to the Federal Transit Administration National Transit Database (FTA NTD) as state recipients. The nonurbanized transit agencies' data is collected by TxDOT-PTN and submitted to FTA-NTD each year in January, with the exception of dual recipients (transit agencies that receive both urban and nonurbanized funding), who report all their data directly to the FTA.

The Safe, Accountable, Flexible, and Efficient Transportation Equity Act: Legacy for Users (SAFETEA-LU) allows exceptions for any Section 5311 subrecipient that is also an urbanized recipient reporting directly to FTA NTD. The reporting requirements of urbanized agencies are much more extensive than the requirements imposed upon the nonurbanized transit agencies. Eight of the thirty-nine nonurbanized transit agencies met dual recipient status for Texas and therefore, were not included in the last NTD report submitted by TxDOT.

To meet the capital reporting requirements of FTA-NTD, the PTN-128 web form financial section was updated in 2008 to include capital expenses (in prior years, capital expenses were not a requirement for State reporting). The shift to include capital expenses in the financial data resulted in twelve nonurbanized transit agencies making corrections to their capital data during the FY 2008 reporting process; however, the overall nonurbanized reporting process went smoothly and was benefited by the use of the two-year PTN-128 web system and the data checking tools incorporated in the system.

Two transit agencies had changes affecting the 2007 and 2008 nonurbanized reporting picture. Fort Bend County began providing nonurbanized transit services to the general public in 2007. It had previously been providing transportation services only thru the elderly individuals and individuals with disabilities transportation program. Also in 2007, West Texas Opportunities, Inc. (WTO,I) added four counties to their service area (Brewster, Culberson, Hudspeth, and Presidio counties). In 2008, Jeff Davis County was added for complete coverage of the west Texas area.

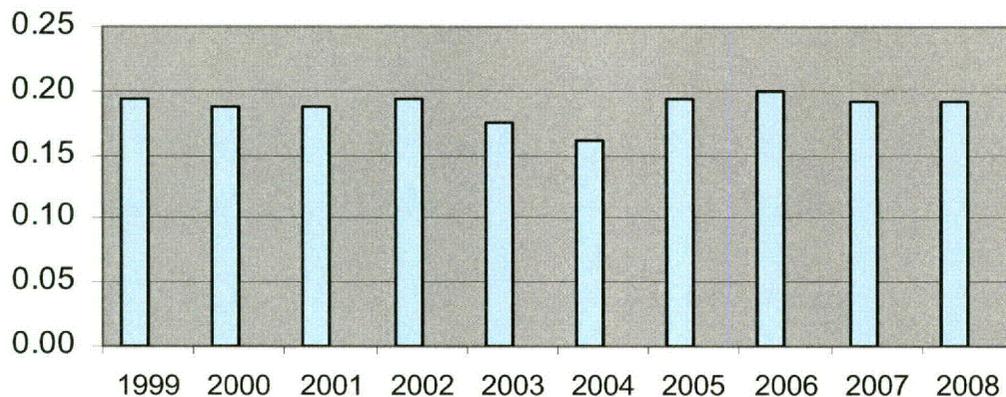

When comparing statistics from 1999 thru 2008, the number of unlinked passenger trips and vehicle revenue miles traveled stayed constant for the nonurbanized transit agencies. Ridership and the miles traveled grew at a modest rate of two percent per year. The “operating expense per vehicle revenue miles” and “operating expense per unlinked passenger trips” indicators both showed a nine percent annualized growth over this time period.

In comparing the 2007 to 2008 ridership and mileage statistics, a slight increase of two percent was observed for these two indicators. Like the urbanized transit agencies, the increased passengers and longer miles traveled in 2008 can be attributed to gas prices.

Again, the reporting of data in 2008 continues to be based on improved data collection techniques and more accurate reporting, so the variances between 2007 and 2006 data may be due to a change in performance or may be due to the improvement in the reporting tools and processes.

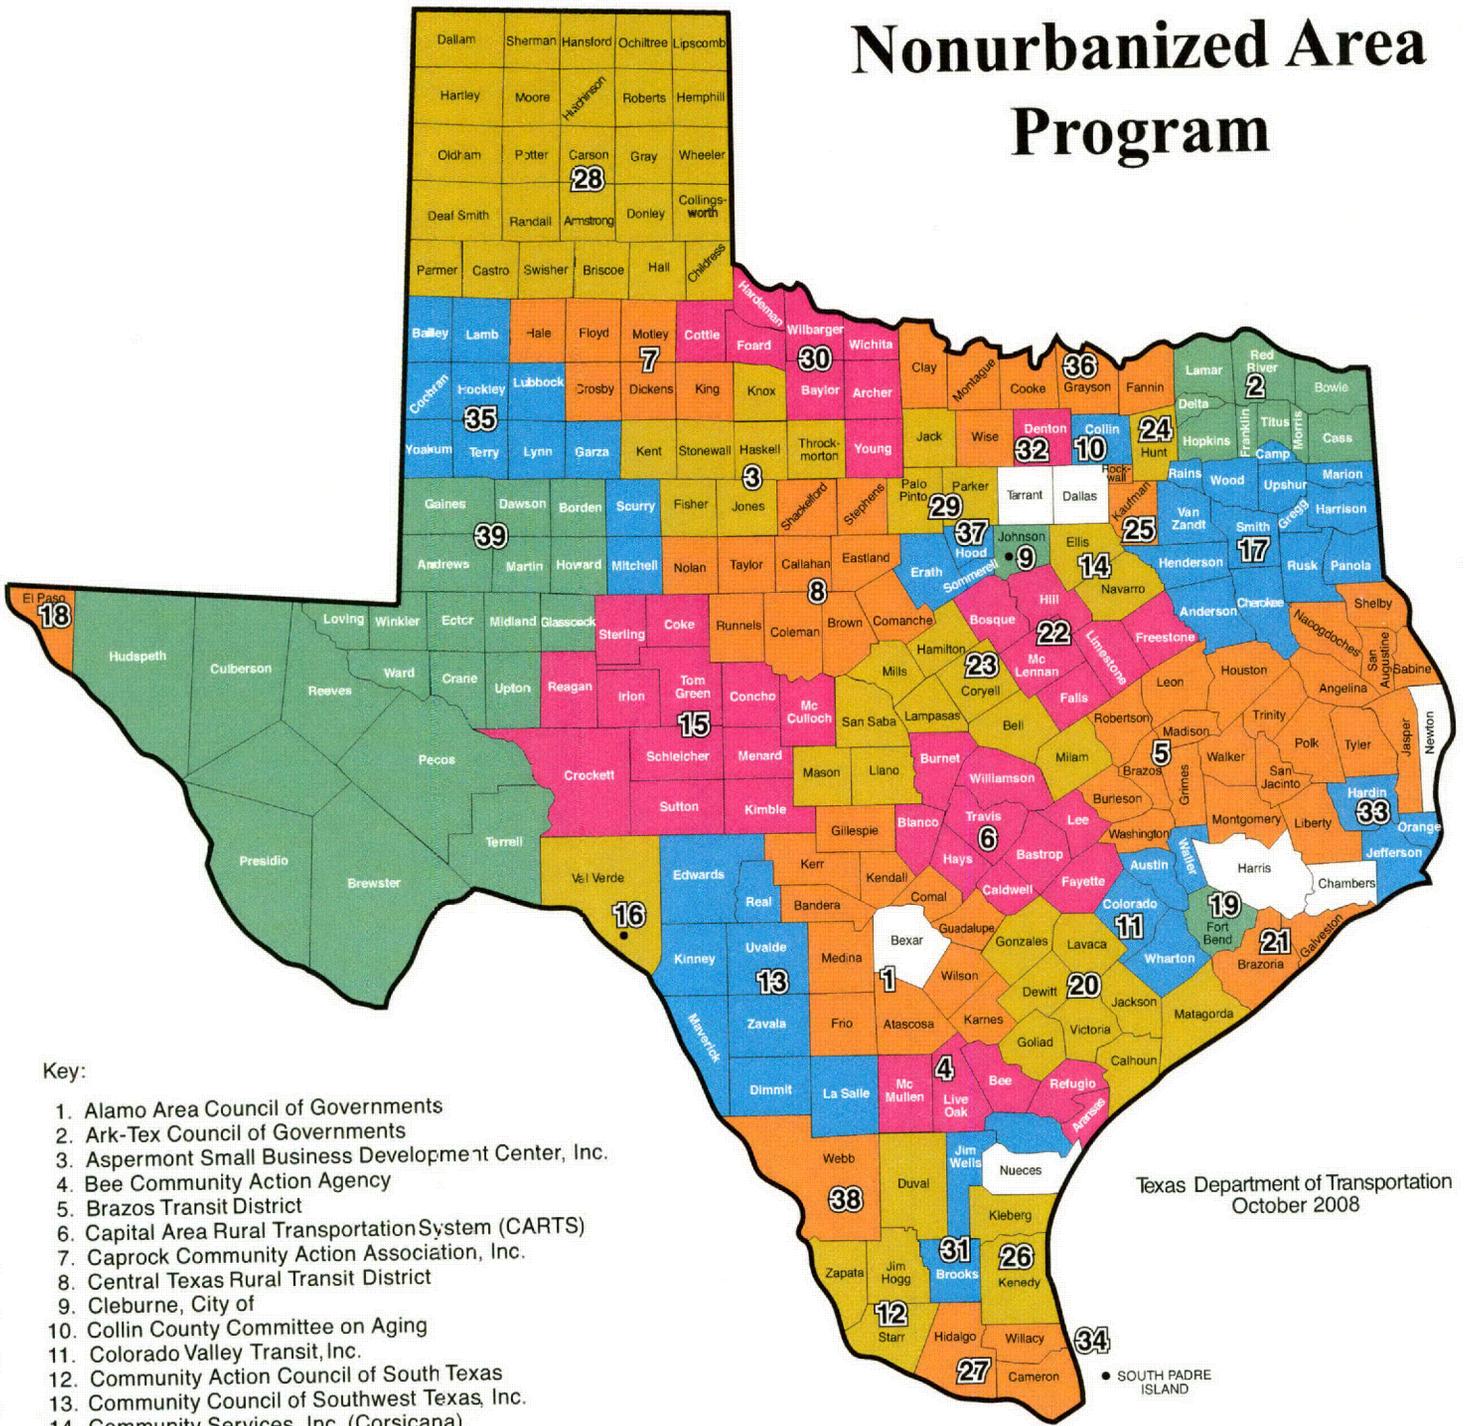

Figure 7, below, shows the nonurbanized transit agencies' “unlinked passenger trips per vehicle revenue mile” indicator during the past ten years. The annualized rate for 1999-2008 shows this indicator is remaining relatively constant at a rate of 0.19.

SUMMARY

ELDERLY INDIVIDUALS AND INDIVIDUALS WITH DISABILITIES PROGRAM (Section 5310)

The Section 5310 Grant Program (49 USC, Section 5310) provides public transportation to assist elderly individuals and individuals with disabilities throughout the State of Texas. TxDOT administers the FTA Section 5310 program, which provides more than one million unlinked passenger trips to elderly individuals and individuals with disabilities annually. This program provides capital assistance to help local private nonprofit organizations, public transportation agencies and governmental authorities when other public transportation is unavailable, insufficient, or inappropriate to meeting these needs.

Section 5310 program funds are apportioned after state administrative expenses are deducted. The formula does not address performance. It includes:

- (a) 25 percent distributed equally among the TxDOT districts and,
- (b) 75 percent distributed by population of Elderly individuals and individuals with disabilities.

Section 5310 funds are allocated to the states, who in turn, distribute funds to eligible local applicants. In urbanized and nonurbanized areas, each TxDOT district establishes a local planning and development process in consultation with local stakeholders. This planning process provides local applicants with an opportunity to participate, ensures that projects meet the needs of the district's residents, and provides for as much coordination of transportation services as possible.

One effect of this increased federal emphasis on coordination requirements is that existing nonurbanized transit agencies have become the primary recipients of Section 5310 funds in rural areas.

The ongoing reduction in the number of independent Section 5310 transit agencies can be attributed to two other factors. First is the Texas Administrative Code rule that MTAs, urbanized and nonurbanized transit agencies are to be the primary recipients for the Section 5310 program in their respective service areas. In fiscal years 2007 and 2008, all 39 nonurbanized transit agencies, along with the cities of Abilene, Brownsville, Galveston, Longview, Lubbock, Tyler, and the Fort Worth Transit Authority served as primary recipients for the Section 5310 program in their area. The inclusion of these operators with the independent Section 5310 transit agencies results in an annual combined count of Section 5310 transit providers of 186 in FY07 and a total of 181 in FY08.

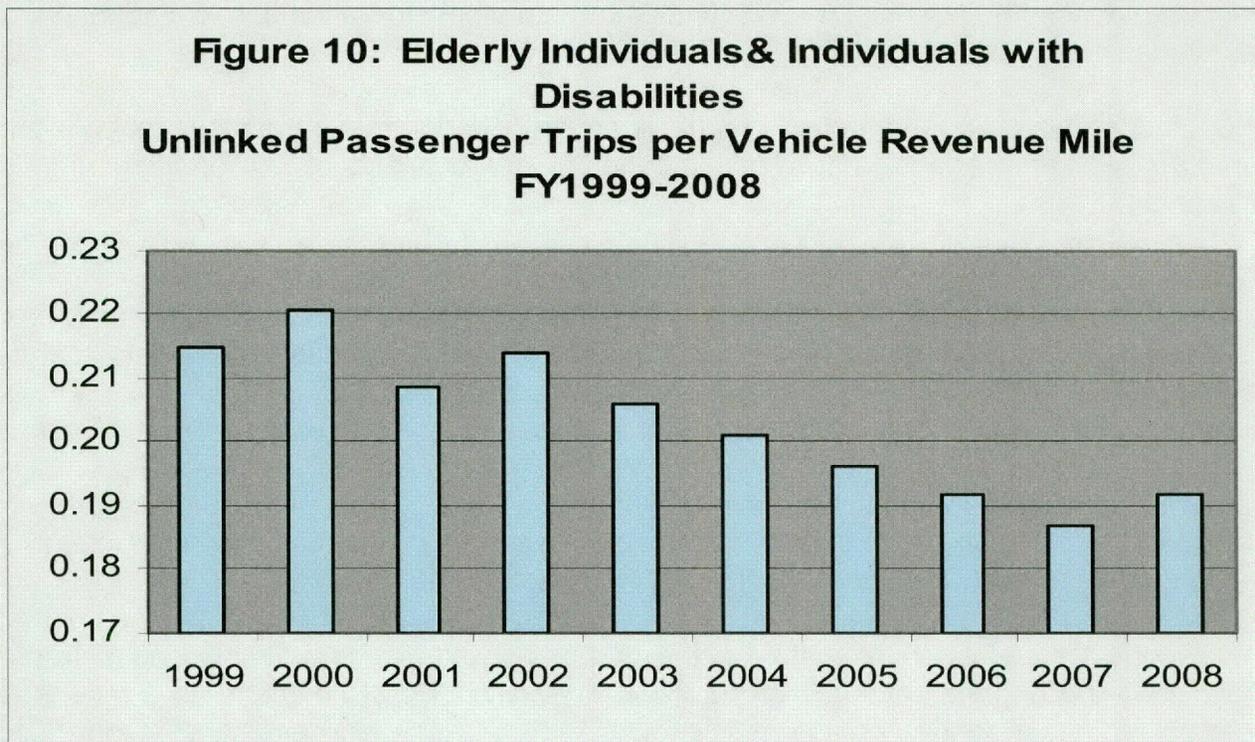

The second factor for the reduction in the number of independent Section 5310 transit agencies is the department's use of purchase of service (POS) contracts as a means to foster coordination and increase efficiency. With a POS agreement, Section 5310 transportation services are contracted-out to other transportation agencies that may be able to provide the service in a more cost-effective manner.

Due to the annual variation in the number of Section 5310 transit agencies, a single table showing year-by-year data and side-by-side comparisons of Section 5310 agencies could be misleading. Annual variations in the number of Section 5310 transit agencies makes it difficult to form any significant conclusions about trends in this program. The safety information continues to be reported as a one-page, state-wide summary in this report.

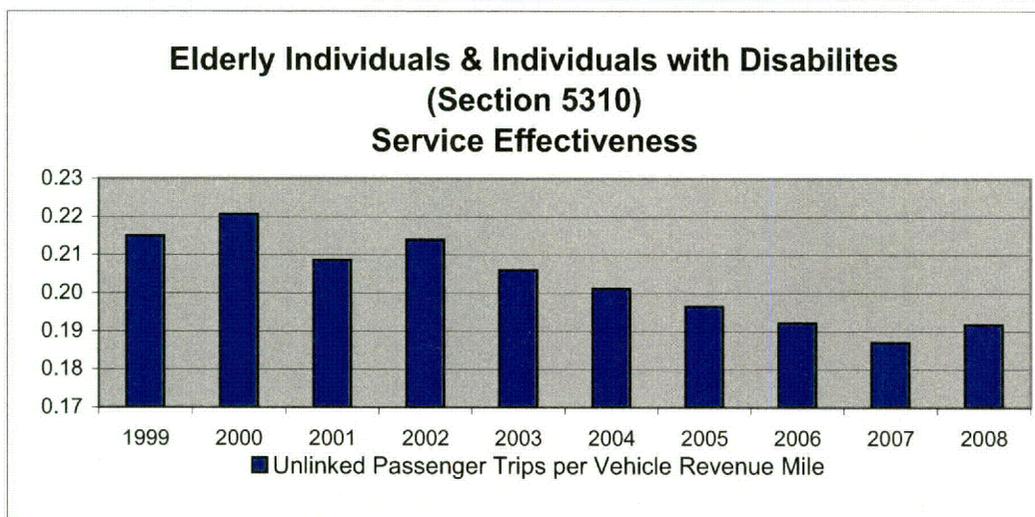

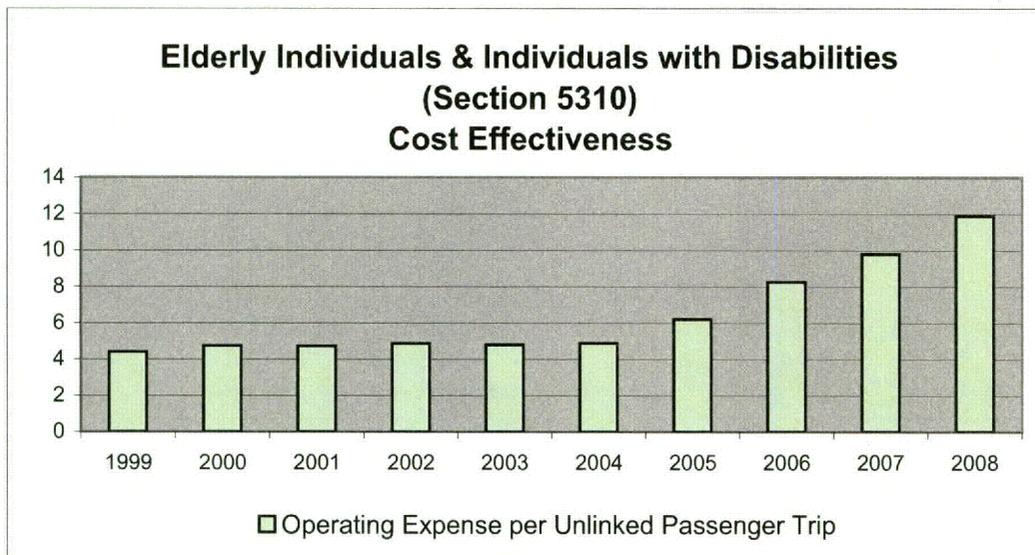

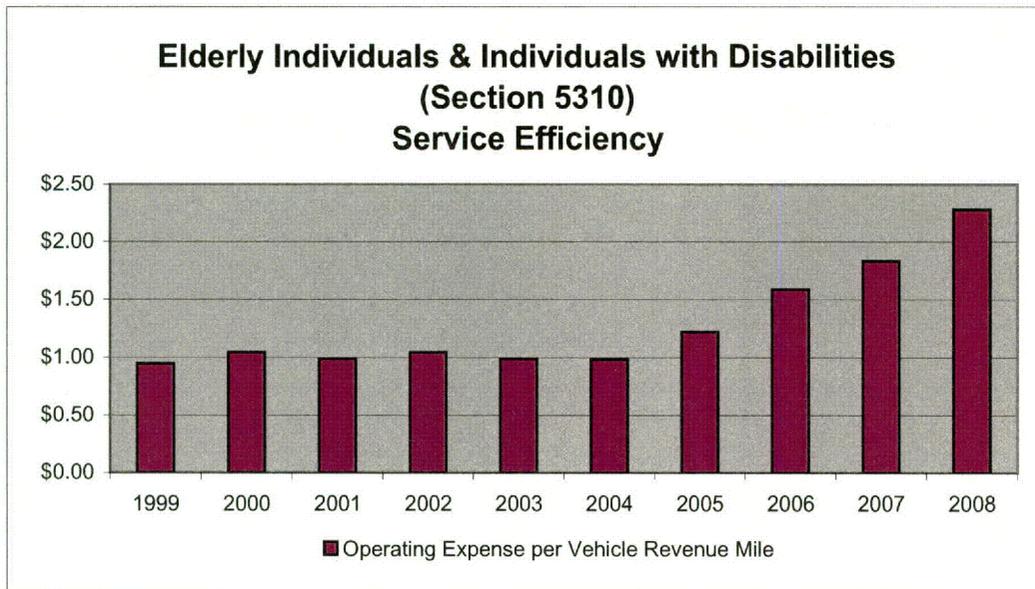

When comparing statistics from 1999 thru 2008, the number of unlinked passenger trips and vehicle revenue miles traveled each continued to show a decline. Ridership decreased at a seven percent annualized rate, and the miles traveled decreased at a rate of six percent. The “operating expense per vehicle revenue mile” indicator portrays a 14 percent annualized growth over this time period and the “operating expense per unlinked passenger trip” indicator has grown by 17 percent.

The ridership from 2007 to 2008 declined slightly at one percent and the mileage statistics showed a four percent decline in the service consumed compared to the 2006 and 2007 statistics indicating a 13 percent decline in ridership and an 11 percent decline of revenue vehicle miles traveled over the two -year period.

Figure 10, below, indicates a continual downward trend in the number of “unlinked passenger trips per vehicle revenue mile” of one percent during the 1999-2008 time period; however, the downward trend does not necessarily mean that services to this population have decreased. As noted, the MTAs, Section 5307, and 5311 agencies report Section 5310 information as part of their urbanized or nonurbanized operations. Also, data collection from independent 5310 recipients continues to be erratic and problematic.

SUMMARY

JOB ACCESS AND REVERSE COMMUTE PROGRAM

(Section 5316)

The Section 5316 Grant Program (49 USC, Section 5316) provides public transportation to and from urban and suburban workplaces. TxDOT administers the FTA Section 5316 Job Access and Reverse Commute Program, more commonly called *JARC*, to address the unique transportation challenges faced by welfare recipients and low income persons seeking to get and keep jobs. Like the Elderly Individuals and Individuals with Disabilities Program, project boundaries are defined in the application for funds.

JARC's Job Access provisions seek to provide public transportation services to connect welfare recipients and low income persons to places of employment and related support activities. These support activities include training, job preparation and interviews, and daycare destinations.

JARC's Reverse Commute provisions have no income orientation, but instead involve public transportation services to a suburban destination. On August 10, 2005, the *Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users* (SAFETEA-LU) was enacted. With this enactment, JARC became a formula program to the states. All JARC projects must be selected from a competition which is held annually for prospective small urbanized and nonurbanized (rural) services throughout the state. On May 1, 2007, Circular 9050.1 (JARC Program Guidance and Application Instructions) went into effect. This circular issues guidance on the administration of the JARC program under 49 USC 5316, including application instructions. Since 2007, competitively-selected projects have been represented in the *Texas Transit Statistics Report*.

As noted in the introduction of this report, due to the inclusion of JARC data into other program reports, monthly statistics have not been captured and are not shown at this time. The data shown on the following tables summarize JARC's operational and financial activities.

Definitions

DEFINITIONS FOR THE ANNUAL TEXAS TRANSIT STATISTICS REPORT

Note: Definitions are based on the FTA National Transit Database Reporting Manual and the Texas Administrative Code.

ACTUAL VEHICLE HOURS: The hours that vehicles travel while in revenue service (actual vehicle revenue hours (VRH)) plus deadhead hours. Actual vehicle hours exclude hours for charter service, school bus service, operator training, and vehicle maintenance testing.

ACTUAL VEHICLE MILES: The miles that vehicles travel while in revenue service (actual vehicle revenue miles (VRM)) plus deadhead miles. Actual vehicle miles exclude miles for charter services, school bus service, operator training, and vehicle maintenance testing.

ALLOCATION: An FTA administrative distribution of funds among the states, done for funds that do not have statutory distribution formulas.

APPORTIONMENT: A term that refers to a statutorily prescribed division or assignment of funds. An apportionment is based on prescribed formulas in the law and consists of dividing authorized obligation authority for a specific program among the states.

AVERAGE MILES BETWEEN REVENUE VEHICLE SYSTEM FAILURES: The sum of all revenue vehicle miles divided by the aggregated sum of mechanical system failures.

COMMISSION: The Texas Transportation Commission.

COORDINATED COUNTY TRANSPORTATION AUTHORITY: A transit authority organized under Chapter 460 of the Texas Transportation Code that follows county boundaries and collects a transit-dedicated sales tax.

DEADHEAD: The operating time (miles and hours) used to move a transit vehicle before revenue service begins and after revenue service ends. When transit vehicles are deadheading, they operate closed-door and are not available to passengers.

DEADHEAD RATIO: The calculation of actual vehicle miles/hours divided by the vehicle revenue miles/hours.

DEPARTMENT: The Texas Department of Transportation.

ELDERLY INDIVIDUALS & INDIVIDUALS WITH DISABILITIES PROGRAM: Agencies funded under the formula Section 5310 program, providing transportation service to elderly and/or individuals with disabilities. Agencies may be non-profit, or a local public body if there is not a readily available non-profit agency in the area. Services may be provided by the grantee agency or

purchased from another agency (typically from a nonurbanized Section 5311 agency).

EXPENSE, TOTAL OPERATING: The total operating cost incurred by a transit agency through its transit operation. It includes the following ten expense objects: labor, fringe benefits, service, materials & supplies, utilities, causalities/liabilities cost, taxes, purchased transportation, miscellaneous expenses and expense transfers. These expense objects are summed by the following four functions: vehicle operations, vehicle maintenance, non-vehicle maintenance and general administration for the total agency expense.

FAREBOX REVENUE: The total passenger fares earned during the report year for directly operated service, regardless of whether they are used during the report year to pay for capital and/or operating expenses. These are fares collected and/or paid for through tickets, passes, tokens, and other fare payment methods.

FAREBOX RECOVERY RATIO: The farebox revenue divided by total operating expenses.

FATALITY: A transit-caused death confirmed within 30 days of the transit incident, which occurs when there is a collision, derailment, fire, evacuation, security incident or when a vehicle leaves the roadway.

FEDERAL TRANSIT ADMINISTRATION: An agency of the United States Department of Transportation.

FUNDS, FEDERAL: Financial assistance from the federal government to assist in paying the capital and operating costs of providing transit services.

FUNDS, LOCAL: Financial assistance from local government (below the state level) to help cover the capital and operating costs of providing transit services.

FUNDS, OTHER: Any miscellaneous funds. Examples are funds dedicated to a local government agency for transportation rather than specifically for transit, advertising revenues, and private donations.

FUNDS, STATE: Financial assistance obtained from the state government to assist in paying the capital and operating costs of providing transit revenue services.

INCIDENT: An event involving a transit vehicle or occurring on transit-related property, involving one or more fatalities, injuries, property damages, or certain crimes.

INJURY: Any physical damage or harm to a person as a result of an incident that requires immediate medical attention away from the scene. (Two or more injuries per incident are reported as Major).

JARC: Job Access and Reverse Commute. A public transportation project relating to the development and maintenance of transportation services designed to transport welfare recipients and eligible low-income individuals to and from jobs and activities related to their employment; or for any income level when transit is to a suburban destination.

MAJOR INCIDENTS: Any event involving the operation of a transit system if, as a result, one or more of the following occurs: an individual dies either at the time of the event or within 30 days of the event; two or more individuals suffer bodily damage as a result of the event requiring immediate medical attention away from the scene; a collision, personal casualty, or fire causes property damage in excess of \$25,000; and/or a transit vehicle moving passengers in service is evacuated due to a serious life safety hazard that constitutes an imminent threat.

MAJOR MECHANICAL SYSTEM FAILURES: A failure of some element of the revenue vehicle that prevents the vehicle from completing a scheduled revenue trip or from starting the next scheduled revenue trip because actual movement is limited or because of safety concerns.

METROPOLITAN TRANSIT AUTHORITY (MTA): Agencies funded under the formula Section 5307 urbanized area program which also meet the requirements of serving an area with a population over 200,000 people, having a dedicated taxing authority, and organized according to specific state statutes.

METROPOLITAN PLANNING ORGANIZATION (MPO): A public organization that is designated by the governor to provide planning transportation services for an urbanized area of at least 50,000 population.

NEW FREEDOM PROGRAM: Financial assistance from §5317 of the Federal Transit Act. This is a formula program to encourage services and facility improvements to address the transportation needs of persons with disabilities that go beyond those required by the Americans with Disabilities Act. Funds may be used for associated capital and operating costs

NON-ARSON FIRE: Uncontrolled combustion made evident by flame and/or smoke that requires suppression by equipment or personnel.

NON-MAJOR INCIDENT: Existence of one or more of the following conditions: injuries requiring immediate medical attention away from the scene for one

person, property damage equal to or exceeding \$7,500 (but less than \$25,000), and all non-arson fires not qualifying as Major Incidents.

NONURBANIZED AREA PROGRAM: Agencies funded under the formula Section 5311 nonurbanized area program, providing coverage for areas of less than 50,000 population.

OTHER MECHANICAL SYSTEM FAILURES: A failure of some element of the revenue vehicle that because of local policy prevents the vehicle from completing a scheduled revenue trip or from starting the next scheduled revenue trip even though the vehicle is physically able to continue in revenue service.

PASSENGER FARES: The revenue earned from carrying passengers in regularly scheduled and demand response (DR) services. Passenger fares include base fare, zone or distance premiums, express service premiums, extra cost transfers, and quantity purchase discounts applicable to the passenger's ride and special transit fares.

PLANNING ACTIVITY PROGRAM: Grants awarded under Section 5303 to MPOs or under Section 5304. to TxDOT for transit planning and research activities.

PURCHASE OF SERVICE: Transportation service provided to a public transit agency or governmental unit from a public or private transportation provider based on a written contract.

REVENUE, OTHER OPERATING: Revenue derived from (1) organizations paying money in lieu of passenger fares, etc. (2) transit-related services such as station and vehicle concessions and advertising; an (3) non-transit related services, such as rental of vehicles and properties, investment income, and non-park-and-ride parking revenue.

REVENUE, TOTAL OPERATING: The total revenue earned by a transit agency through its transit operations. It includes passenger fares, advertising, financial assistance for transit operations (not capital expenditures) such as federal, state and local government.

RURAL AREA PROGRAM: Agencies funded under the formula Section 5311 nonurbanized area program, providing coverage for areas of less than 50,000 population. See also NONURBANIZED AREA PROGRAM.

RURAL TRANSIT ASSISTANCE PROGRAM (RTAP): The funds allocated to the States to undertake research, training, technical assistance and other support services to meet the needs of transit agencies in nonurbanized areas.

SAFETY INCIDENTS: Any event involving the operation of a transit system if, as a result, one or more of the following occurs: an individual dies either at the time of the event or within 30 days of the event; one or more persons suffer bodily damage as a result of the event requiring immediate medical attention away from the scene; and/or property damage in excess of \$25,000.

SALES TAX: (DEDICATED FUNDS): Any funds raised specifically for transit purposes and which are dedicated at their source (e.g., sales taxes) rather than through an allocation from the pool of general funds.

STATE FISCAL YEAR (SFY): The state accounting period of 12 months that begins on September 1 of each calendar year and ends on August 31 of the following calendar year.

TRANSIT VEHICLE AND PROPERTY DAMAGES: The dollar amount required to repair or replace all vehicles (transit and non-transit) and all property/facilities (tracks, signals, and buildings) damaged during an incident to a state equivalent to that which existed prior to the incident: major Incidents (exceed \$25,000) and non-major incidents (exceed \$7,500 but less than \$25,000).

TEXAS ADMINISTRATIVE CODE: The body of state regulations that are published and have the force of law. Find transit at Title 43 - Transportation, Part 1 – Texas Department of Transportation, Chapter 31 – Public Transportation.

UNLINKED PASSENGER TRIP: A one-way trip carrying a person from a single origin to a single destination. Passengers are counted each time they board a vehicle no matter how many vehicles they use to travel from their origin to their destination.

URBANIZED AREA: An area defined by the U. S. Census Bureau that includes: one or more incorporated cities, villages, towns (central place), and the adjacent densely settled surrounding territory (urban fringe) that together have a minimum of 50,000 persons. The urban fringe generally consists of contiguous territory having a density of at least 1,000 persons per square mile. Urbanized areas do not conform to congressional districts or any other political boundaries.

URBANIZED AREA PROGRAM: Agencies funded under the formula Section 5307 urbanized area program. Both metropolitan transit authorities (MTAs) and smaller urbanized area fall in the Section 5307 urbanized area program, but are generally treated separately. In this report, "urbanized areas" fall between 50,000 and 200,000 in population or do not meet the State requirements to be classified as an MTA.

VEHICLE REVENUE HOURS: The hours that vehicles are scheduled to or actually travel while in revenue service. Vehicle revenue hours include layover/recovery time; but exclude deadhead, operator training, and vehicle maintenance testing, as well as school bus and charter services.

VEHICLE REVENUE MILES: The miles that vehicles are scheduled to or actually travel while in revenue service. Vehicle revenue miles include layover/recovery time; but exclude deadhead, operator training, and vehicle maintenance testing, as well as school bus and charter services.

VEHICLES, NUMBER OF: The number of revenue vehicles available to meet the annual maximum service requirements. Vehicles available for maximum service include spares, out-of-service vehicles, and vehicles in or awaiting maintenance, but exclude vehicles awaiting sale and emergency contingency vehicles.

WITH DISABILITIES TRANSPORTATION PROGRAM (5310)**

A complete listing of the current transit agencies operating as Section 5310 providers would be too cumbersome to list in this report. Listed below are two methods to obtain a current listing.

To obtain a list of addresses of these agencies, please contact the Texas Department of Transportation, Public Transportation Division, 125 East 11th Street, Austin, Texas, 78701-2483 or call (512) 374-5230.

Or you can view the current transit agencies by going to TxDOTs' website
